Features

- Torque management: expanded functionality with Window(Standard feature)
The screw tightening process and resulting torque can be set and managed using our proprietary control technology.

- Tightening result traceability
The screw tightening torque is traceable in real time with the included special application ProE-Expert.

	Torque range	(*Reference: target screw diameter)	Product name
Standard	10.0-45.0 (mN.m)	S0.6 Micro screw	PRO-FUSE TYPE S
		M1.2	PRO-FUSE TYPE OFFSET R/L
	30.0-180.0 (mN.m)	M2.0	PRO-FUSE TYPE L
		M3.0	PRO-FUSE TYPE XL
High-torque type	200.0-700.0 (mN.m)	M4.0	PRO-FUSE TYPE GX
