

GigE Vision-compatible Camera

ace GigE Series [acA640-90gm and others]

The Basler ace series are industrial cameras that can be used for various applications with compact housing and at ultra-low costs. Has the largest shipment of industrial cameras in the world, with its excellent price/performance ratio due to its small case and unrivaled production capacity. Supports Power over Ethernet, making it possible to create flexible system configurations with the ability to use a maximum cable length of 100 m without the need for a power cable.
